

WHEEL LOADER

Site Clean Up

Once all tasks are finished, you will need to clean up the site. This includes removing any tools and equipment that have been used.

In clearing your work area you will be carrying out housekeeping activities. Housekeeping procedures on your site may include:

- Eliminating or controlling any potential hazards. Your duty of care means you shouldn't leave a possible source of danger or accident for others.
- Using the correct PPE – Make sure you use appropriate PPE when dealing with waste or possible hazardous materials as you clear up. For example, chemicals used for cleaning can be dangerous unless used correctly.
- Removing any hazard controls that are no longer needed, e.g. temporary fences, barricades and signage.
- Recycling or disposing of materials to carry out site clean-up tasks, e.g. construction materials, stockpiled materials, stones, rocks, gravel and bituminous mixes, paper and site rubbish – Put any waste materials in the bins provided, and recycle where possible, in line with the site plans for environmental management or waste disposal.
- Packing up, maintaining and storing plant, equipment and tools.
